

CS 300: Advanced Programming Spring 2022

Assignment 1 - Part 1

Haskell

Submission Date and Guidelines:

This is the first out of three parts of Assignment 1. All of the questions present in the file must be completed by **11:55 PM Monday, 7th February**. Submit your file with the naming convention **rollnumber_PA1_1.hs**. Make sure not to change the definitions/arguments of the functions provided in the file. However, you are allowed to make helper functions according to your needs. Please refer to the haskell file provided for further details.

Plagiarism Policy:

The code **MUST** be done independently. Any plagiarism or cheating of work from others or the internet will be immediately referred to the DC. If you are confused about what constitutes plagiarism, it is your responsibility to consult with the instructor or the TA in a timely manner. **Please do not look at anyone else's code nor discuss it with them.** We will also be conducting evaluation/viva sessions where you will have to explain your code implementation details to the TAs.
